*An AI tutor that turns emaktab.uz grades into **personalized lessons***

* **Scorpius** — a group of stars. Separate stars become a guide only when connected. We connect knowledge the same way: one star per topic, one lesson per gap.

“**emaktab.uz** is the *third most-visited* website in Uzbekistan — after YouTube and Google.”

emaktab

Every Uzbek student already lives inside **emaktab every weekday**.

That's an audience no edtech company can reach and a wedge no one else can build on top of.

*"e-maktab tells me my child got a 2 today.
It doesn't tell me why, or what to do."*

Qaytadan

Oltin nuqta — gulchang. Uni hech kim ko'rinmas qo'l bilan turtmaydi — uni minglab issiq suv molekulalari urib turibdi. Haroratni oshirish va izga qarang.

Sim bilan ishlang — sizning o'lchovlaringiz shu yerda yig'iladi.

✓ Gulchang zig-zag yuradi — uni million molekula har tomondan uradi. Harorat oshganda urishlar kuchayadi, harakat kengayadi. Bu — Broun harakati.
